- [Testing by Grade/Subject](#)

Easy-to-interpret reports provide teachers and administrators the prediction of proficiency that is critical to monitoring student progress toward state-mandated goals. The color-coded reports let you quickly see the data you need.

Transform Data Into Information, Information Into Knowledge, and Knowledge Into Action.

#### Drilldown Report

View in-depth results for a subject at the grade and class level. At the class level, you can view results by objective and drill down to individual student results.

[View Report](#)

#### Interactive Item Summary

An enhanced interactive version of the Item Summary Report, providing sorting by multiple criteria and instant access to test items, reporting categories, and associated resources.

[View Report](#)

#### Student Subgroup

Explore specific disaggregated populations. View results for Gender, Ethnicity, Economically Disadvantaged, English Language Learners, and Students with Disabilities.
